View My Portfolio →

My career has been defined by bold challenges, resilience, and relentless enthusiasm.

I've been in the game for 15 years, yet I remain committed to continuous growth and mastering new skills. I thrive on tackling complex problems and seeing them through to completion. For me, IT isn't just a job—it's a lifestyle. I hope our goals align and that my expertise can bring value to your team.

Core skills

PRODUCT DESIGN & UI/UX:

Mobile App Design (iOS/Android), Prototyping, Design Systems, Responsive Web Interfaces, Micro-interactions

DEVELOPMENT STACK:

Python (FastAPI, Pandas), JavaScript/TypeScript (React), SQL (Redis/Firestore), HTML5/CSS3

TOOLS & WORKFLOW:

Figma (Advanced Components), Adobe CC (Ps, Ai, An), Blender, VS Code, Git, Google Cloud Platform (GCP)

AI & AUTOMATION:

LLM Integration (Gemini API), Prompt Engineering, Automated Content Pipelines

Professional Experience

Mobile application & site development (personal project)

Czech Republic, 2025 – Present

- **Product Vision:** Designed and developed a comprehensive AI guide to help immigrants and displaced persons overcome language barriers and integrate into new environments.
- Built a scalable backend using Python (FastAPI) and Google Cloud Platform, integrating Gemini API for real-time translation and guidance.
- Developed a multi-level caching architecture (Redis/Firestore) to optimize LLM token usage, reducing operational costs while maintaining high performance.
- Programmed complex logic for interpreting user prompts to inject context-aware business recommendations (AdTech integration).
- Handled full deployment cycle including CI/CD pipelines and cloud infrastructure setup

Career Break & Professional Development Czech Republic

2023 – 2025

- Relocated to the Czech Republic due to the war in Ukraine.
- Independent Study: Deep dive into Python backend ecosystem (FastAPI, Redis, Docker).
- Language Learning: Intensive Czech language courses.
- Employment: Worked in a manufacturing role to support family and fund self-education during the adaptation period.

Insight Group— Technical Support & UX Analyst

2018 – 2023

- Supported senior managers and executives using the corporate learning platform.
- Tested e-learning courses (SCORM, TinCan), analyzed user experience, and proposed improvements.
- Acted as second-line support, resolving complex cases and reporting directly to leadership.

RA ALP — Lead Designer

2013 – 2022 (Contract)

- Designed advertising materials, animated banners, and landing pages for promotional campaigns.
- Became the sole and lead designer by 2016, managing all creative output.
- Delivered successful projects for major brands including Nestlé, Kinder, Huggies, Colgate, Kiabi, Blauberg, Scarlett.

Freelance Designer & Animator

2011 – 2018

- Interactive Animation & Web Design.
- Designed graphic elements, logos, and website layouts for small businesses and agencies.
- Delivered full-cycle visual solutions — from concept sketches to final assets — tailored to client branding and campaign goals.
- Built long-term relationships with regular clients through consistent quality and creative flexibility.

Education & Certifications

- 2020 — Programming Basics Certificate
- 2013 — Graphic Designer Intensive
- 2012 — Web Development Course
- 2011 — Animation & Motion Graphics Course

Hobbies & Interests

- Photography
- 3D printing and prototyping digital designs in 3D
- Electronics tinkering and small-scale engineering projects
